Humidification

for Home Comfort and Health

The brighter choice®

Braeburn® Humidifiers

Shared Features

- Patented KineticFlo® Water Distribution Tray Assures High Performance
- UV Resistant DuraPlast® Pad Frame
- Stainless Steel Solenoid Valve Seat
- Preassembled for Quick Installation
- Saddle Valve Kit Included

Bypass Humidifier 220500 / 220550

220500 Includes Manual Humidistat

220550 Includes Digital Humidistat¹

Additional Features

- Delivers up to 12 Gallons Per Day
- Up to 2,856 Sq. Ft. Coverage
- Reversible Bypass Damper and Cover
- Accepts Competitive Humidifier Pads
- Includes 24 VAC Transformer

Replacement Humidifier Pad: 229010

The Braeburn

220500 / 220550 Replaces:²

- Honeywell® 220A, 220B, 225A, 225B
- Aprilaire® 550A, 550M
- Skuttle® 2000, 2100
- GeneralAire® 570
- Trion® G200

Bypass Humidifier 220600 / 220650

220600 Includes Manual Humidistat

220650 Includes Digital Humidistat¹

Additional Features

- Delivers up to 17 Gallons Per Day
- Up to 3,904 Sq. Ft. Coverage
- Reversible Bypass Damper and Cover
- Includes 24 VAC Transformer

Replacement Humidifier Pad: 229019

The Braeburn

220600 / 220650 Replaces:²

- Honeywell® 260A, 260B, 265A, 265B
- Aprilaire® 600A, 600M, 560
- Skuttle® 2001, 2101
- GeneralAire® 900, 900XM, SL16, 1042
- Trion® G300

Fan Powered Humidifier 220700 / 220750

220700 Includes Manual Humidistat

220750 Includes Digital Humidistat¹

Additional Features

- Delivers up to 18 Gallons Per Day
- Up to 4,214 Sq. Ft. Coverage
- Built in Power Cord for 120 VAC Outlet

Replacement Humidifier Pad: 229019

The Braeburn

220700 / 220750 Replaces:²

- Honeywell® 360A, 360B, 365A, 365B
- Aprilaire® 700A, 700M, 760
- Skuttle® 2002, 2102
- GeneralAire® 1000, 1000XM, 1137
- Trion® G100

Humidistats

229100 Manual Humidistat

- 24 Volt AC Operation
- 10% to 60% RH Measurement Range
- Reliable Switch Performance
- Wall Mount or Plenum Flush Mount

229150 Digital Humidistat

- 24 Volt AC Operation
- 5% to 95% RH Measurement Range
- Automatically Adjusts Humidity to Outdoor Air Temperature
- Large Display with Bright Blue Backlight
- Non-Volatile Memory Retains User Settings
- Built-In Test Mode
- Wall Mount or Plenum Mount with Air Stream Sensing

229150 Available December 2009

Could your Home be Drier than the Desert?

Yes! In winter months, the relative humidity can drop to as low as 5% in the average home.

Compare that to the average 25% relative humidity of the Sahara

Desert and you can better understand the need for a Braeburn humidifier!

How does Humidity Effect Comfort?

Dry air is like a sponge—it soaks up moisture in your home. Since the air in your home is always trying to reach its saturation point, it will absorb water wherever it's found. This means that it is stealing moisture from the bodies of you

and your family, your pets, furniture and even your house plants. By giving up moisture to the air, your skin, throat and nasal passages can dry out and crack, leading to various physical discomforts.

Humidifiers can Save Money on Heating Bills!

As moisture evaporates from your body, it cools the surface of your skin.

Using a Braeburn humidifier to control humidity may allow you to turn down the heat in the winter months, thus reducing overall annual heating costs. **For example, 68°F at 40% relative humidity may feel just as warm as 74°F at 20% relative humidity.**

Humidity Control for Home Comfort and Health

Research has shown that 30% to 60% relative humidity is ideal for today's homes. Outside of this range, bacteria, fungi, viruses and mites can thrive. Proper levels of relative humidity not only help maintain furniture and woodwork, but also provide comfort and health benefits to animals, plants and especially you and your family. The chart below reflects the Optimum Humidity Range for Comfort and Health.

Decrease in Bar Width Indicates Decrease in Effect
OPTIMUM ZONE

*Insufficient Data above 50% rh
